WELCOME TO THE LOVEPOP FAMILY

Who we are

Lovepop creates unique, laser-cut pop-up cards by combining state-of-the-art shipbuilding technology and the ancient paper art of kirigami. We were founded by trained naval architects, Wombi Rose and John Wise, who discovered 3D sliceform paper sculptures on a Harvard Business School trip to a Vietnamese night market.

Our hundreds of designs range from whimsical to sentimental and are handcrafted to perfection by a team of engineers, designers, and paper artisans. Lovepop is on a mission to create 1 billion magical moments by spreading the power of connection and surprise.

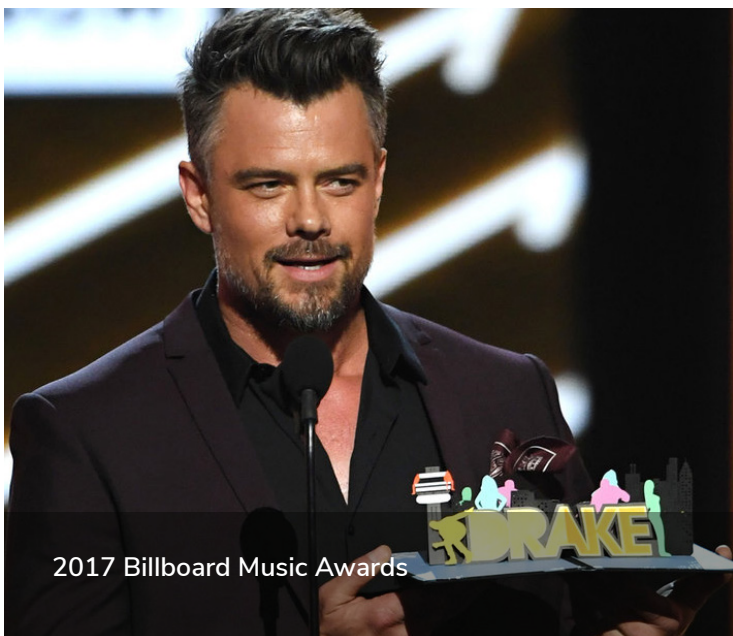

Where you've seen us

We made a deal with Mr. Wonderful on ABC's "Shark Tank" in 2015 and have since made appearances on "The View," "Good Morning America," CNBC, and Mo Rocca's "Innovation Nation." Our pop-up designs revealed winners at the Billboard Music Awards, dazzled shoppers with Henri Bendel's holiday display, and showcased the power of innovative technology with Microsoft. Or may you've seen our designs posted on social media. We know once you open a Lovepop it's hard to keep it to yourself—though we guarantee you'll want to!

Lovepop + You

Our retail partners are a part of our family, just like our customers and our team at Lovepop. We run our own production facility, which means that from creation to distribution, our cards are crafted by members of our own team, who are committed to the quality that your magical moments deserve. From fast and easy shipping to unique merchandising solutions to always new designs promised to delight, we are dedicated to your success. Let's create magical moments together.

Since our appearance on Shark Tank, we've sold over 1,000,000 cards.
